RE Super Fund clean up

Please don't dump on St Johns.

Please clean up the river so it's ok to swim and it's ok to eat the fish.

My name is (b) (6). I live at (b) (6). I own my own home. I moved to Portland Oregon 40 years ago. I've lived in my home in St Johns for 34 years. My home is about 1000 yds from the newly proposed St Johns Dump.

We have a household of 6 persons, 1 dog and 2 cats and a large garden. My daughter and her SO live with us b/c housing costs are exorbitant right now. They are expecting (b) (6)
(b) (6) (b) (6)
(b) (6)

Also we, Grandma & Grandpa, provide childcare for 3 of our 11 grandchildren b/c we are fortunate enough to do so. My granddaughter (b) (6) grade and is attending Sitton Grade School. My granddaughter (b) (6) grade at Sitton Grade School. My grandson (b) (6) Sitton School at 7:45 am M-F. Sitton School is less than 1000 yds from the newly proposed St Johns Dump.

We are of the opinion the newly proposed St Johns Dump is too close to such little children and other living things.

We are of the opinion that the Super Fund site ought to be cleaned up so it's ok to swim our river and eat the fish - b/c that's the way it was given to us.

We are paying for a do-over cleaning up our river. Why put it off on kids not born yet? Let's do it right this time.

Very respectfully,

(b) (6)
